

WALFORM

In partnership with A. Waldron & Sons

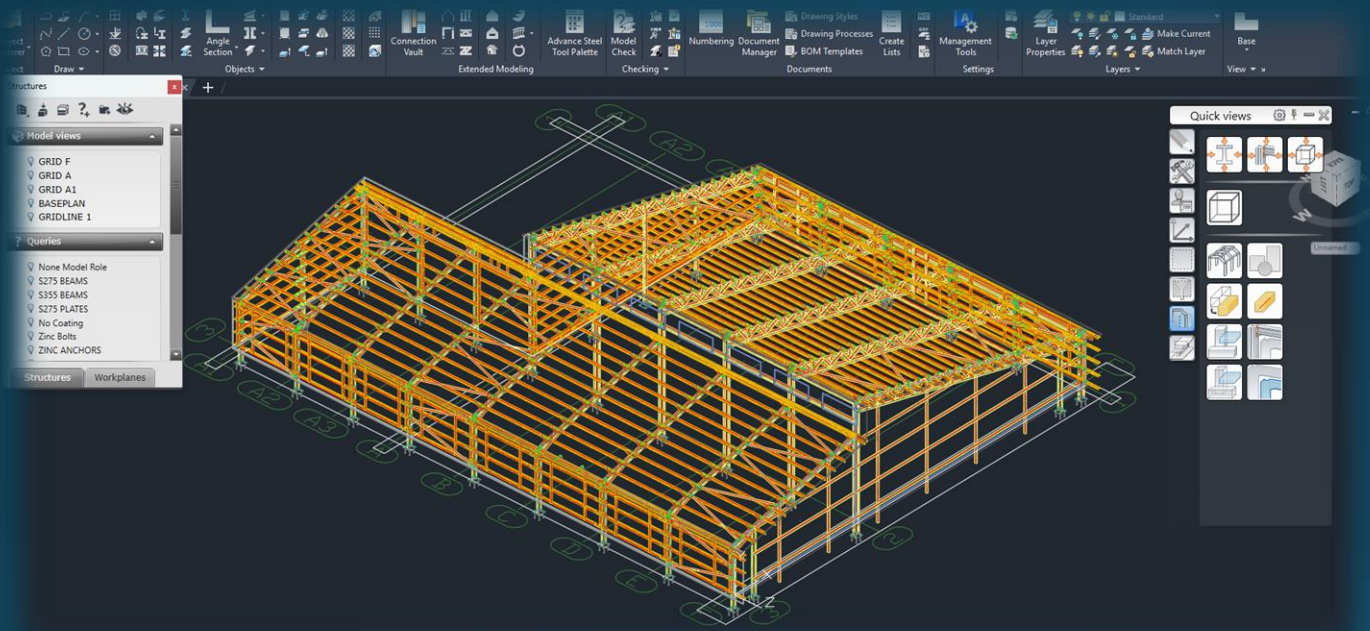

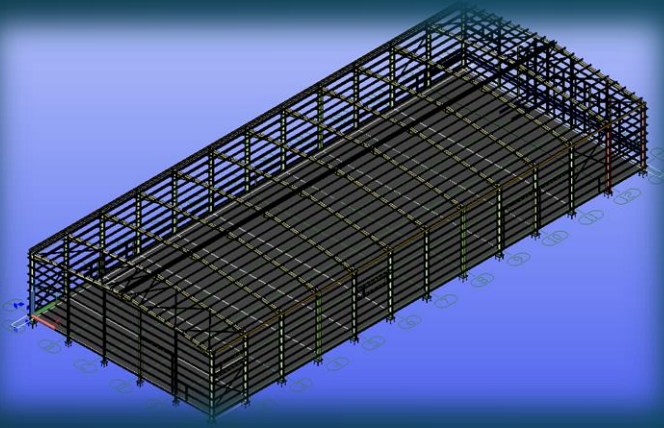

Transforming Steel Into Solutions

Walform Ltd – Steel Fabrication Excellence

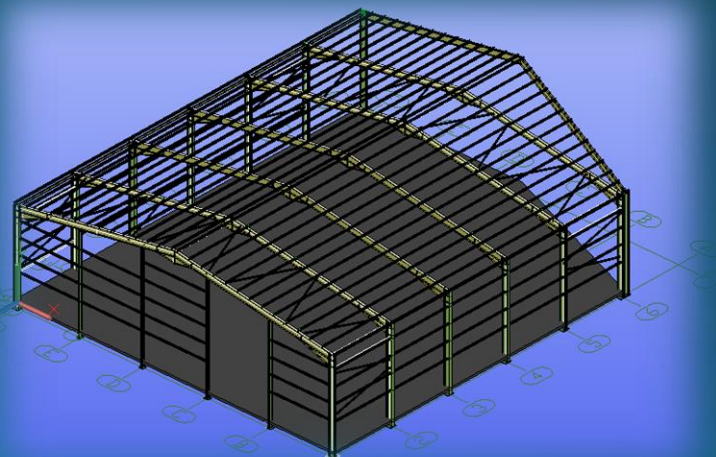

Walform Ltd is a third-generation steel fabrication company based in Gorey, Co. Wexford, Ireland. With decades of expertise and a strong family legacy, we have built a reputation for delivering high-quality steel solutions that meet the most demanding standards of today's construction industry.

- Our advanced **3D design and detailing services**, powered by **Building Information Modelling (BIM)**, provide accuracy, efficiency, and seamless integration from concept to completion. Every project is engineered with precision, fabricated with care, and installed to the highest safety and quality standards.

As one of Ireland's leading steel fabrication companies, we are trusted by clients across multiple sectors to deliver reliable, innovative, and durable solutions. From fabrication to full on-site installation, we ensure every project is completed to a standard we are proud to hand over.

- At Walform, we fabricate a wide range of steel structures, including:
- **Structural Steel**
- **Secondary Steelwork**
- **Stairs, Ladders & Access Platforms**
- **Custom Architectural & Industrial Fabrications**
- Our team combines **craftsmanship, innovation and precision engineering** to create steel structures that perform, endure, and inspire.

Our workshop is fully equipped with advanced machinery to handle every aspect of steel fabrication. From CNC plasma cutting and drilling lines to press brakes and ironworkers, Walform's in-house capabilities ensure precision, efficiency, and reliability across all projects.

Building Strength from the Ground Up

At Walform, **In partnership with A. Waldron & Sons**, we deliver complete steelwork solutions — from groundwork and frame erection to commercial units.

- Steel Frame Erection
- Concrete & Structural Integration
- Cladding & External Finishing

Completed Commercial Facility

The finished building showcases Walform's ability to deliver turnkey solutions — functional, durable, and visually impressive.

Why Choose Walform?

- Full-service fabrication & installation
- Skilled workforce with precision equipment
- Proven track record in commercial & industrial builds

Transforming Steel Into
Solutions

- Walform LTD, in partnership with A. Waldron & Sons, delivers a complete service from start to finish. From groundwork and structural steel to concrete formwork and final completion, we provide a seamless, single point of contact for all construction, building, groundwork, and steel requirements.

Transforming Steel Into
Solutions

Our Values

- **Quality** – Products and services built to the highest standards.
- **Safety** – Protecting our workforce, our clients, and every project environment.
- **Innovation** – Using the latest technology and techniques to stay ahead.
- **Reliability** – Consistent, dependable service you can trust.
- **Sustainability** – Minimising environmental impact through responsible practices.
- **Precision** – Accuracy at every stage, from design to installation.
- **Durability**
Long-lasting structures engineered to perform.
- **Efficiency**
Streamlined processes that save time and reduce waste.
